FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Secretary of State**, the **Department of Insurance**, and the **Department of Public Safety, Missouri Highway Patrol** assume this proposal would have no fiscal impact on their organizations. Officials from the Missouri Highway Patrol said there were 5,482 collisions between wild animals and motor vehicles in 2001.

Officials from the **Department of Conservation** assume this proposal would have a significant but unknown cost to the Conservation Commission Fund.

Officials from the **Office of the Attorney General** did not respond to our request for information.

Oversight assumes all of the 5,482 reported collisions between motor vehicles and wild animals would involve deer and would result in damages exceeding \$250 per vehicle. Accordingly, this proposal would cost \$1,370,500 per year.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal would require the Department of Conservation to pay the first two hundred fifty dollars of damages to a motor vehicle that collides with a deer.

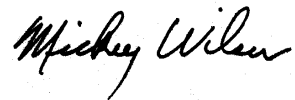

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
